NOTIFICATION.

The 16th May 1875.—The Lieutenant-Governor is pleased, in supersession of the Notification published at page 1647 of the *Calcutta Gazette* of the 4th November 1874, to direct the substitution of the following for Rule 96 of the Rules regulating labour transport under Act VII (B.C.) of 1873, published in the *Calcutta Gazette* of 21st January 1874, and of the following Schedule showing the scale of clothing to be provided for emigrants, for Schedule A, Parts A and (a) appended to these rules.—

Rule 96.—The space measured off for emigrants shall be fitted, along the sides of the vessel, with (a) a boarding three feet high, rising from the planksheer of the vessel, and (b) thick and sound canvas curtains, hanging from roof to deck, with ventilating space under the canvas, and fastening closely to the deck below. But from the month of October to March, both inclusive, the three-feet boarding shall completely enclose the emigrants' deck space, and, besides the side curtains, there shall be similar curtains hung, one at each end of the deck, so as to convert the entire space allotted to emigrants into a thoroughly sheltered compartment, with ventilating spaces near the roof for the exit of heated and unwholesome air. This large compartment shall, moreover, be subdivided into three smaller compartments by a couple of intermediate curtains, stretched right across the deck space from one side of the vessel to the other, but, instead of extending almost up to the roof, as the curtains at the sides and ends must do, raised to a height of six feet only, measuring from the deck upwards, the space above being left clear and open for the purposes of free ventilation.

NOTIFICATION.

The 1st May 1875.—Under the provisions of Section 2 of Act V (B.C.) of 1873, the following plan for extending gas-lighting to certain portions of the town of Howrah is published for general information —

1. The portions of the town to which it is proposed to extend the lighting are that portion of the grand trunk road which lies between Ramkrishnapore Ghat Road and Bishop's College Road, Seepore Ghat Road and Ghosvery Road. The total length of these roads is $2\frac{1}{2}$ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,81,863, and a rate of 3 per cent. would yield an income of Rs. 4,810 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept the sum in payment for supplying gas.

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from their general fund during the current official year.

CHITTAGONG MAGISTRATE, the 16th November 1874.

No. 23-L.F., dated Noakhali the 30th October 1874.

From—L. B. B. KING, Esq., *Offg. Magistrate of Noakhali.*

To—The Commissioner of the Chittagong Division.

UNDER paragraph 3 of Government Circular No. 50 dated the 23rd July last, I have the honor to submit a report on works of local improvement in this district, for the year ending the 30th September last.

2. The following were the works carried out in the first half of that year:—

Construction of a masonry bridge at Mendigona near the town, and of seven temporary bridges on the Luksham road, between Begungunge and Buttra; removal of the remains of an old bridge at Banchanaggar, and construction of a temporary one in its place; repairing the Dhoom Chur Bridge, and raising the approaches to that, and to the Chaprassy Khal Bridge; raising the approaches to eight bridges on the Luckipore road; placing bamboo spurs to prevent injury to the Chaprassy Khal Bridge by encroachment of the river.

Reconstruction of part of the Luckipore road washed away at Pearapote; repairs on the Chittagong road between the boundary of the municipality and the Chaprassy Khal Bridge on the Begungunge road, from Mendigona to Begungunge on the Dewangunge road; from Sundarpore to Dewangunge; and on the Ramgunge road from Dullal Bazar to Ramgunge.

3. The following works were under execution or completed in the second half of the year:—

Construction of the Shahibghatta wooden bridge, expected to be shortly finished. Reconstruction of a wooden bridge at Sonagazi Chaprassy haat on the Chittagong road, not yet completed.

Partial repair to the metalled roads in the station. This work will, it is hoped, be properly completed this cold weather.

Repair of the road from near the station to Raipore. Of this the last eight miles has been imperfectly done, and the last mile washed away; the Executive Engineer's attention has been requested to the proper execution of the work. Earth-works on the Luksham road between Buttra and Nowtola are in progress, and the greater part completed.

Construction of bamboo spurs to prevent encroachment of the river at Mendigona has been commenced, but the work has been hitherto impeded by the depth of the water from heavy rain and high tides.

Repairs have been done to the old Luckipore road between Begungunge and Luckipore. Where the land is low, the early rains prevented the road being raised as required, but the surface repairs have been completed.

The road from the Chaprassy Khal to Companygunge has been put in repair. The Luksham road from Begungunge to Buttra has been repaired and turfed, and the jungle cleared away. A section of the Luckipore road near Bhowanigunge has been raised.

It was originally intended to complete the widening and straightening of the Dewangunge road, but nothing of this has been done. Greater part of the allotment was afterwards assigned to repairs and improvements on the road, which have been commenced and partly carried out.

A beginning has been made in planting trees on the side of the district main roads.

4. The following are the works proposed to be carried out during the cess year 1874-75.

Construction of six timber top bridges of one span with masonry abutments and wings between Begungunge and Huzra.

Widening and straightening the Dewangunge road from Moonshoe hant to Ramdy, and from Jongodia to Gopeengunge, and the Road in Pasgasa, eight miles.

Completing the railings and plastering of the seven timber top bridges of the Begungunge road, and two bridges on Dewangunge road.

Raising earth-work in the approaches of the above bridges.

Deepening a canal at Attiarollee.

Planting trees on the edges of the main roads.

Fixing spurs in the bends of the khal to prevent encroachment on roads.

Thorough repairs to the four important and main roads of the district:—1st, Chittagong road, 2nd, Dewangunge road, 3rd, Luckipore road, 4th, Begungunge and Luksham road up to Buttra, 100 miles.

Thorough repairs to three petty and traffic roads of the district near sunder station—Taktakhally, Hurriakhally, and Goolakhally, 17 miles.

Thorough repairs to the Rangunge road, 12 miles.

Thorough repairs to the first portion of old Luckipore road from Madam's Ghât to Chengatoli, Obundergunge to Begungunge, 24 miles, and second portion from Begungunge via Kolaudy to Fazi Ghât, 16 miles.

Thorough repairs and reconstruction of the old pucks and timber top bridges on the district roads, 85 bridges.

Repairing fences of the trees planted on the main roads of the district.

Thorough repairs to the kutcha and metalled roads and bridges of the sunder station, 16 miles.

Reconstruction of the temporary bridges on the Luksham road.

Reconstruction of the temporary bridges on the police station and district dâk roads, Rangunge, Old Luckipore, and Mamot and Goolakhally roads.

Excavation of a canal, and construction of an embankment, to prevent encroachment on the road, and to shorten and straighten the passage of the Noakhali khal at Shahebhatta.

No. 2181T, dated Calcutta, the 8th Janr 1874.

Office Memo.—From the Deputy Accountant-General,
To—The Collector of Bhulloolah.

In reply to your endorsement No. 125, dated 22nd May 1874, please refer to this office memorandum No. 2447F, dated June 1874, in which you have been informed that Rs. 3995-14-1, shown by you as balance of the Road Fund of your district on 31st December 1873, have been agreed with the figures of this office.

The following is the correct balance of the Road Fund of your district on the last day of February 1874:—

	<i>Rs. A P.</i>	<i>Rs. A P.</i>
Balance on 31st December 1873	3,995 14 2
Add Receipts in January 1874	734 6 11	
" " February "	5,106 5 2	
		5,814 12 4
		9,840 10 10
Deduct payments in January 1874	20 0 0	
" " in February "	20 2 0	
		40 2 0
Correct balance on the last day of February 1874	9,800 8 10
Balance as per District Road Account	9,896 14 11
Difference	96 6 1

The difference arises from the sum of Rs. 96-6-1, incurred on account of the travelling expenses of Mr. L. B. B. King, and of ministerial officers in June 1872, not having been charged to the Fund by the Magistrate of your district.

No. 1262, dated Comillah, the 21st November 1874.

No. 1B., dated Rangamattce, the 2nd November 1874.

From—A. W. B. POWELL, Esq., Officiating Deputy Commissioner,
To—The Commissioner of the Chittagong Division.

I HAVE the honor to forward, agreeably to instructions contained in Bengal Government Circular, Public Works Department, No. 31 of the 15th August last, the annual accounts of the District Road Fund for the year 1873-74, commencing from 1st October 1873 and ending with 30th September 1874. The income and expenditure for that period stand as follows:—

Ditto in hands of the Deputy Commissioner	929	14	9
Advances outstanding	14,117	0	0
Total	33,301	9	3

2 The following works have been executed during the year under review —

- A.—About 4½ miles of road, at a cost of Rs. 1,050-11-2, from the mouth of the Myons, where the Tipperah settlement commences, towards Sirthay Tlang, the proposed head-quarters of the Frontier Police Force, have been constructed, large trees cut down, and stumps and roots of trees removed; cuttings on the earth from 1 to 2 feet made, in order to prevent, as far as practicable, the undergrowth of trees.
- B.—The sides of steep hills on the road in and near Rangamattce, extending over a mile, have been cut and the road levelled and improved at a cost of Rs. 320-10, so as to make it in future fit for wheeled carts.
- C.—A part of a hill called the Manickcherry Moin, on the way towards Chittagong and within 5 miles of Rangamattce, has been cut through, at a cost of Rs. 2,841-10-9, in order to make it practicable for wheeled carts. The cutting through that hill includes the removal of upwards of 541,000 cubic feet of sandstones, and more than 200 large trees have been uprooted.
- D.—The channel at Utaunchuttra rapids has been enlarged and deepened, and a part of the rocks removed; the road from Sirthay Tlang to Demagore, above 7 miles in length, has also been widened, undergrowth of trees cleared, and a gentle slope cut in places which were formerly precipitous. The expenditure on this account has amounted to Rs. 1,123-14. The path from Demagore to Sirthay Tlang involves an ascent of 1,500 or 1,800 feet.
- E.—The jungle on the road from Rima to Banderhun, about 26 miles in length, has been cut and removed at a cost of Rs. 1,053, rendering it practicable for persons to go overland from one place to the other.
- F.—The road from Feshcheria to Burkil, measuring about 2½ miles, has been improved by cutting the rocky hill sides, widening the road, and making 24 temporary bridges, at a cost of Rs. 992-6.
- G.—A masonry well, about 50 feet deep and 28 feet in circumference, has been sunk, at a cost of Rs. 754-8-3, in the bazar on the side of the head-quarters' road at Rangamattce. Several outbreaks of cholera, attributed to the want of pure water, occurred during the year under review.

This office letters Nos. 102A and 929 of 26th September and 16th November 1874, respectively.

H.—A sum of Rs. 141-2 has been spent in leveling the top of a hill for erecting a circuit bungalow for the Commissioner of Chittagong, vide correspondence noted on the margin.

- I.—A village road six miles long, from Rangamattce to Mowcherry, leading to the largest plot of land taken by hillmen for plough cultivation, is in course of construction, vide Bengal Government Circular, Public Works Department, No. 32 of 27th September 1873. A sum of Rs. 200 has been advanced on this account; but as the work has not yet been finally executed, it does not appear in the annual returns, but the amount is entered under the head of advances outstanding.

J.—The undergrowth of trees on the road from Rangamattee towards Chittagong, measuring about twenty-one miles, has been cleared, and 67 temporary bridges made for the rainy season, the cost of which has amounted to Rs. 620-7-8. The expenditure of Rs. 60-10, for repairing the head-quarter road, needs no comment.

K.—The sums of Rs. 990 paid for establishment, Rs. 270-14-8 spent for tools, and Rs. 75-7-9 paid for landing charges of tools, steamer freight, and other petty expenses, require no explanation.

8 Before reporting on the subject of the works to be executed during the year 1874-75, I beg to state for your information that road-making entails a heavy expenditure in this district. All the roads have to be cut through thick jungle, and in many places through high and steep sides of hills, where the growth of trees and under-shrubs is so rank and luxuriant that cutting and clearing even three or four times annually fails to keep the jungle down. For instance, there are few or no traces of the roads marginally named made in previous years. If there are any, they are scarcely recognizable, and none of the roads are now passable. The two principal roads, 1st from Rangamattee towards Chittagong, 2nd from Chanderghouah towards Banderbun, which are looked after, and the undergrowth of trees cut and removed as soon as the necessity arises, become very often impassable.

1 The road from Rangamattee to Barbol, constructed in 1871-72.

2 The road from Karendong up the Myson Valley towards Gungaroo, ditto in 1867-68 and 1868-69.

3 The road from Mizith to Suluhong (to Kanda Tung), ditto in 1868-69.

4 The road from Rangamattee to Kanda Tung, in 1868-69 and 1871-72.

5 The road from Handerbun to Fowah, ditto in 1870-71 and 1871-72.

6 The road from Fowah to Kanda Tung, ditto in 1869-70.

These roads were all made, either in connection with the expedition or to open communications with frontier posts established to check lawless raids.

A reference to the annual report for 1870-71 will show that in order to prevent the growth of under-shrubs on the road from Rangamattee towards Chittagong, cuttings, extending in some places to 15 feet in depth, were made and *daupia* grass planted; yet these means have proved ineffectual to prevent the growth of jungle. As Major Asham, formerly Deputy Commissioner of this district, put it—“One can almost hear the jungle growing.” Heavy expenditure is consequently necessary to construct and keep open the roads of this district, and in my opinion much of the backwardness of the district is a direct result of imperfect communications.

4. The following works are proposed to be executed during the year 1874-75—

A.—Constructing the road from Rangamattee towards Chittagong, cutting 240,000 cubic feet of earth from the hill near Rangamattee so as to make the road practicable for wheeled carts. Cost, Rs. 720.

B.—Raising three miles of road, by cutting 340,000 cubic feet of earth, and putting the same on the road (for Rs. 1,620) from Rangamattee towards Chittagong, where the land is low and marshy and nearly impassable during the rains.

C.—Cutting 500,000 cubic feet of earth from Manickcherry Mon so as to make the road passable for wheeled carts. Cost, Rs. 1,500.

D.—Constructing four bridges of first class wood for Rs. 3,200.

E.—Improving and widening the head-quarter road at a cost of Rs. 600.

F.—Constructing the road from Rangamattee towards Sirdhay Tlang, the proposed head-quarter of the Frontier Force; total length 60 miles. Out of which 20 miles of the above road will be made by cutting steep sides of hills, clearing jungle, uprooting stumps and roots of trees, and digging out weeds and sunn grass. Cost Rs. 10,000, at Rs. 500 a mile. This is the strategical road connecting Rangamattee with the frontier through Myson.

G.—Constructing the road from Ruma, the head-quarter of Sungoo sub-division, towards Rangamattee; total length 66 miles, out of which 12 miles of road will be constructed (for Rs. 6,000, at Rs. 500 a mile) in the manner stated in para. supra. Owing to changes about to be introduced in the dak arrangements between Rangamattee and Ruma, it will be advisable to devote some of the money estimated for this road to the construction of roads from Ruma to the Matamoree Circle and from Handerbun to the Kaptai Circle.

H.—It is proposed to enlarge the channel at Ootann Chitttra, at a cost of Rs. 2,000, by cutting, blasting, and removing the rocks from the bed of the river, so as to make it passable for large boats, and thereby save Government a large amount of money in boat hire.

I.—Constructing a road from Wagga Cherra tea plantation to Chanderghouah for Rs. 4,000, one-half of which amount will be paid by the owner of the plantation. The distance is only four miles as the crow flies, but the country is broken and precipitous.

J.—The construction of four village roads has been proposed in the budget estimate for 1874-75 (submitted with this office letter No. 151R of the 1st September 1874), extending over 38 miles, total length, at a cost of Rs. 1,140, which will give free access to the head-quarters of Rangamattee and Sungoo sub-divisions from large villages and from places where plough cultivation is carried on to a great extent, and where at present there are no roads exist.

- K.—An estimate has been made to whitewash the revetment erected in 1872-73 on the side of Rangamattie head-quarter road, cost to be Rs. 250, and to deepen the well from 50 to 60 feet, mentioned in paragraph 2G. *supra*, and to whitewash the same for Rs. 500.
- L.—Repairing three miles of road from Chandersonah towards Rangamattie for Rs. 100; twenty miles of road from Rangamattie towards Chittagong for Rs. 400, removing the debris and boulders from the hill sides on the above road for Rs. 400, and repairing 2½ miles of road from Ratna, the head-quarter of Sungroo sub-division, towards Rangamattie for Rs. 480. These require no special explanation. They represent the periodical jungle-cutting required to keep the roads open.
- M.—For establishment Rs. 2,100; for new tools Rs. 2,000, *vide* Commissioner's letter No 812 of 11th October 1873; and for repair of tools and unforeseen contingencies Rs. 490 have been proposed in the estimate, and call for no remark.

No. 422G.M., dated Chittagong, the 30th December 1874.

From—B. L. MANGLAS, Esq., Offg. Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Department

With reference to Government Circular No. 50 of the 23rd July 1873, and No. 51 of the 8th August last, I have the honor to submit the following

Chittagong, Noakhally, Tipperah and Hill Tracts of Chittagong.

report on the works of local improvement carried out in the Chittagong Division during the cess year 1873-74, and to forward herewith copies of the reports and the accounts of the District Road Fund for that year, which have been received from the districts noted in the margin of this division.

2. The Magistrate of the Chittagong district has furnished no report, but has simply forwarded the report submitted to him by the Executive Engineer. The reports submitted also by the Magistrates of the remaining districts are not so complete as they should be, and no information has been furnished by any of them as regards the working of the district Committees and other matters of importance. As my report is already overdue, I shall not delay its submission any longer, but will submit, when received, the further information and explanations called for from district officers on the points noticed hereafter.

3. The receipts of the year from tolls and cesses, &c., throughout the division amounted to Rs. 20,187-12-5, which, with the balance of Rs. 18,791-7-0, outstanding on the 1st October 1873, the miscellaneous receipts, amounting to Rs. 15,917-3-5, and the grant-in-aid from provincial funds of Rs. 74,850, made up a total sum of Rs. 1,29,732-15-10, available for works of local improvement in this division for the cess year under review.

4. The total expenditure of the year amounted to Rs. 70,309-0-0. Of this sum, Rs. 8,704-1-10 were spent in collection of the revenue and on miscellaneous accounts, Rs. 41,470-15 were laid out in original works, Rs. 15,938-15-4 in repairs, and a sum of Rs. 4,194-15-11 was refunded. The balance at the close of the year thus amounted to Rs. 59,440-15-0.

5. There is a discrepancy observable between the balance brought forward in the present accounts of the Noakhally district and that shown in those for the cess year 1872-73. The difference, viz., Rs. 2,646-13-4, represents the receipts from one per cent. road cess, and was afterwards added to the balance in October 1873, under various entries conveyed in the Accountant-General's Circular No. 288, dated 20th August 1873. Again, as regards these accounts, it is necessary to notice that Rs. 96-6-1 have been debited to the District Road Fund during the year on account of the travelling allowance of certain officers, as per accompanying copy of the Accountant-General's memorandum No. 24811, dated 8th June 1874.

6. The balance, Rs. 630-1-1, at credit of deposits, which has been brought forward in the present accounts of Tipperah, was the amount held as deposits from the several ferry farmers as security for regular payment of their kists. This amount was spent in 1872-73, because, as has been explained, the sum at credit for that year was very small and insufficient to meet the expenditure of that year. The above sum has now been adjusted, and has consequently been deducted from the receipts of the cess year 1873-74.

7. I now proceed to notice certain details in regard to the works executed, expenditure incurred, &c., &c., in each district.

8. *Chittagong*—The amount available for expenditure in the Chittagong district was Rs. 48,340-9-9. Of this amount, Rs. 27,236-11-11 were expended as follows:—

		Rs.	A.	P.
Establishment	...	450	2	0
Original works	...	20,791	5	2
Repairs	...	5,769	11	1
Miscellaneous	...	925	12	8

The balance remaining in hand thus amounted to Rs. 21,103-10-10.

9. All the works carried out in this district were executed under the superintendence of the officers of the Public Works Department, with the exception of the repairs to a few roads, which were carried out under the superintendence of tea planters, as, for instance, the repairs to the Fennosa road and the road from Ramoo to Cox's Bazar, which were executed under the supervision of Mr. Maralpine of Fennosa, and Mr. Windram of Ramoo, respectively.

10. The original estimate under the head of establishment amounted to Rs. 3,842. The details of proposed expenditure have been already furnished in the estimates submitted with this office letter No. 729, dated 19th December 1873, and need not here be referred to. But the amount expended under this head during the past year was on account of part salary of a local fund clerk and on account of a few small contingent charges only. Why the requirements originally deemed necessary under this head and provided for in the estimate have not been carried out, has not been explained. A reference has now been made to the Magistrate on the subject.

11. Of the sum of Rs. 26,465 estimated for on account of original works, Rs. 20,791-5-2 only were spent. Whether this diminution of expenditure has been owing to the works having been carried out at cheaper rates than originally estimated for, or whether it was owing to some of the works having been only partially carried out, has not been stated. A detailed explanation on the subject has been called for, and the Magistrate has been requested at the same time to state how each item of work has been carried out—whether in an efficient and satisfactory manner, or otherwise.

12. Of the total amount of Rs. 8,470 estimated for repairs, only Rs. 5,769-11-1 were spent. Of works originally estimated for, the following were not apparently carried out, viz. :—

Mectaserra feeder. | Towing paths. | Rangocua road.

Why these works were omitted, and why, even excluding these, the charges have been below the estimates, has not been explained in any way. A full report, as above indicated, in regard to original works, has now been called for from the Magistrate.

13. The dry details as regards the extent of original works and repairs executed have been given by the Executive Engineer in his report herewith sent, and need not be here detailed again. The further report called for from the Magistrate, as above indicated, will be forwarded when received.

14. The large balance at the close of the year of Rs. 31,040-3-11 is partly owing to the fact that receipts exceeded the estimates by Rs. 9,066-12-9, and partly owing to the actual expenditure falling short of the estimated expenditure by about Rs. 13,567-11-5.

15. Pending further information and explanation from the Magistrate, I cannot think that the results are satisfactory. Roads and means of communications generally of all kinds throughout the district are few and of a very inferior description, and it appears to me that no time should have been lost by the Magistrate in remedying matters, as far as possible, by expending all available funds in carrying out the improvements which are so greatly needed.

16. It appears from the Executive Engineer's report that he proposes to carry out the following works during the current year :—

- (1).—The widening of the Arracan road from the 25th to 30th mile, and the putting up of two bridges with necessary abutments and two culverts at the 30th and 31st miles, respectively.
- (2).—Similar repairs to the Arracan road from the 1st to 5th mile.
- (3).—Widening and straightening the Rangurh road from 12th to 15th mile.
- (4).—Necessary repairs of the above road and the bridges from the 1st to 26th mile.
- (5).—The extension of the Jhill Tract road for one mile, and repairs to the portion of the road already constructed.
- (6).—The extension of the Hahshahat road for 2 mile up to the village of Hahshahat, and the protection of a part of the road from the encroachments of the river Korneofoer.
- (7).—Strengthening the Boal Khalee sluice gate by means of angle irons.
- (8).—Clearance of a portion of the Boal Khalee canal.
- (9).—Deepening of the middle part of Bish Khalee canal, where silt accumulates by the meeting of opposite currents.

17. As information has now been received, vide Government order N^o 7018, dated 12th instant, of the probable grants-in-aid which will be made for the current year, the Magistrate has been requested to submit the necessary detailed proposals and estimates for future works without further delay. I shall then, in consideration of the statements and reasons furnished, pass my remarks on the several future works proposed.

18. The amount available for expenditure in the Tipperah district was Rs. 14,048-6-2. Of this amount Rs. 10,214-9-3 were expended as follows, leaving a balance of Rs. 3,113-12-11.

	Rs.	A.	P.
Establishment and contingent charges	6,398	8	10
Original works	1,827	4	0
Repairs	1,735	11	6
Miscellaneous	253	1	0

19. It will be seen that by far the largest of the sums above given was expended in the payment of the cost of establishment and of contingent charges connected therewith. This expenditure was of an extraordinary character, and was necessary for the preparation of road cess registers and the valuation papers under the Road Cess Act, and exceeded the estimates by Rs. 218 only.

20. The estimates for original works and repairs were drawn up on the understanding that an additional grant of Rs. 20,652, applied for by this office letter No. 255, dated 18th September 1873, would be sanctioned; but as this application was not granted, little could be done with the small balance available after payment of establishment and cost of constructing and furnishing a bungalow for the Road Cess Committee.

21. The money available appears, however, to have been judiciously spent in repairing some of the existing roads, though, looking to the comparatively large balance at the close of the year, more might have been done in this particular. The details have been fully given by the Executive Engineer, under whose superintendence all the works were carried out. The Magistrate, however, has failed to report on the manner in which the works were executed, and will be now requested to do so.

22. The preliminary proceedings and road cess valuations having been now completed in this district; the tax will be at once levied from the commencement of the current cess year. The amount available for future expenditure will be Rs. 1,014-8-11 per hundred. Estimates and proposals for the smaller works to be carried out during the current year,

amounting to Rs 52,849-2, have been already approved by me; and proposals and estimates for extending the Brahmunberiah and Lukeham roads—the two most important and urgent requirements of the district—at a cost of Rs. 25,991-4 and Rs 19,201, respectively, have been submitted by me for the approval of Government through the Superintending Engineer.

23. As has been frequently represented by the Magistrate, the existing staff at the disposal of the Public Works Department is altogether inadequate for superintending the extensive operations now about to be commenced in this district. The question as regards the agency to be employed in future under the Road Cess Committee is still pending before the Government. Meanwhile the Superintending Engineer has been requested by me to move the Government to appoint some additional overseers to assist the Executive Engineer, so that none of the present valuable time for undertaking the works may be lost.

24. In the district of Noakhully the amount available for expenditure was Rs. 21,093-7-10. Of this amount, Rs 18,828-7-10 were expended, leaving a balance of Rs 2,455. The expenditure under the several heads was as follows —

	Rs	A	P
Establishment	267	7	0
Original works	10,567	7	8
Repairs	7,752	7	2
Miscellaneous	41	2	0

25. As in the Chittagong district, the amount spent in establishment, viz, Rs 267-7, represents merely the part salary of the local fund clerk. Under the head of original works the chief expenditure was on account of compensation for land taken for the Dewangunge and Chappraessee hit roads, leaving a balance of Rs 980-9-1 only for other petty works.

26. From the details given by the Magistrate and the Executive Engineer it would seem that extensive repairs had been carried out on all the existing roads. As regards the repair of the road from the Noakhully station to Roup-re, the Magistrate notices that the repairs were in parts imperfectly carried out; but as he has failed to furnish any information in regard to the manner in which other repairs and works were carried out, he has now been requested to do so.

27. The works proposed to be carried out during the current year have been mentioned by the Magistrate and need not be again noted by me. As the probable grant for the year is now known, the Magistrate will be requested to submit at once a more detailed report on the subject, together with the necessary estimates. The most urgent and important work in the district appears to me to be the completion of the Laksham and Comillah road, and as much as possible of the available funds should be, I think, allotted for the prosecution of this work.

28. The amount available for expenditure in the Chittagong Hill Tracts was Rs 25,503-15-1. Of this amount, Rs 14,182-10 were expended as follows, leaving a balance of Rs. 11,321-5-1 —

	Rs	A	P
Establishment	990	0	0
Contingent charges	24	6	0
Original works	8,284	14	0
Repairs	681	1	8
Miscellaneous, including refunds	4,154	1	2

29. The amount originally estimated for establishment aggregated Rs. 1,280, of which, however, Rs 990 only have been actually expended in the payment of the special allowance made to Mr. Rozario, Inspector, under whose superintendence all the works in the Hill Tracts are carried out, and of the salaries of the two local fund clerks.

30. The amount estimated for original works was Rs 17,938-10-2, of which only Rs 8,284-14-2 have been actually expended during the year. It is not clear from the report submitted by the Deputy Commissioner why the cost of the work already carried out falls short of that entered in the original estimates which were submitted to Government by this office No. 723, dated 19th December 1873, and which contain the details of the works which were proposed to be executed in the Hill Tracts. An explanation on this subject has now been called for.

31. The chief expenditure under the heading of original works was that incurred in constructing a road fit for the passage of carts over a hill situated on the road from Obittagong to the head-quarters of the district, and in the removal of the rocks at the rapids which have to be crossed in passing from the head-quarters to Demagire, an important station on the frontier.

32. The amount estimated for repairs was Rs. 2,800, whilst only Rs. 681-8 have been expended. An explanation regarding this also has been called for, as well as regarding the manner in which the several works in detail have been carried out under the superintendence of Mr. Rozario.

33. A pernicious system of making large advances for works has obtained in this district, and it appears that, of the advances made during the year, no less than Rs. 14,447-0-9 were not worked out, and remained outstanding at the close of the year. The Deputy

Commissioner has already been directed not to make any fresh advances without my special sanction, and to realize or work off all outstanding balances of every description. As he has failed to offer any explanations in regard to the sum above noticed, he will now be required to submit a detailed report on the subject.

34. Details and estimates of the works to be carried out during the current year have been already submitted. The most important of these works, and which should be pushed on as rapidly as possible, are as follows:—

1. Construction of the road from Chittagong to Rangamattee, the present head-quarters of the district.
2. Construction of the road from the head-quarters of the Hill Tracts towards Sirthay.
3. Construction of the road from the head-quarters of the Saugoo sub-division towards the head-quarters of theadder sub-division of the Hill Tracts.
4. Enlarging the channel at Ootan Chuttra, between Rangamattee and Demagiree.

No. 127G.M., dated Chittagong, the 1st March 1875.

From—R. L. MANGLES, Esq., Offg. Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Department.

In continuation of my letter No. 422G.M., dated the 30th December 1874, on the subject of the administration of the district road funds in the Chittagong Division during the cess year 1873-74 I have the honor to submit the following supplementary report as promised therein.

2. *Chittagong*.—In the district of Chittagong five meetings of the Road Committee were held to carry on general business.

3. The late Magistrate and Chairman reports that the members took scarcely any interest or active part in the proceedings; that they were of little or no assistance; that no original action was taken by them; and that they merely approved of what was suggested to them by the Chairman. Mr. Kukund, however, the present Magistrate, differs from the opinion expressed by Mr. Venner on the subject, and states that, so far as his experience goes, he has had occasion to form a much more favorable opinion of the committee.

4. As regards the unexpended balance mentioned in paragraph 10 of my report above referred to, the Magistrate explains that the savings shown under the head of establishment are attributable to the fact that "no charge was made to the district works on account of provincial establishment of the Public Works Department, as was anticipated when the budget estimate for district works was submitted, except the pay of a local fund clerk and a few small contingent charges," and that this procedure was enjoined by the orders of Government, received subsequent to the preparation of the budget estimate.

5. Regarding the unexpended balance referred to in paragraph 11 of my previous report, the Magistrate of Chittagong states that the total amount estimated for original works was not fully expended, owing to the very early setting in of the rains during the year 1874, which prevented the completion of many works sanctioned for the year.

6. The present Magistrate of Chittagong, having only recently taken charge of the district, expresses his inability to give his opinion as to the manner in which each work was carried out during the year under report; nor is his predecessor, it is stated, in possession of any information on the subject.

7. Adverting to paragraph 12 of my report, the Magistrate states that no repairs were effected to the Meetasura road, owing to the early setting in of the rains, as above mentioned; that the repairs of Boalkhally towing paths could not be taken into hand, as the estimate for deepening the Boalkhally canal was not sanctioned during the year, the spare earth of which was to have been used in repairing these towing paths; and that no repairs could be made to the Rangoma road, as there was no Government land adjacent to it from which the requisite earth could be taken. But it is stated that the owners of the adjoining lands have now consented to earth being taken up for repairs of this road without any compensation.

8. *Tipperah*.—During the cess year 1873-74 eight meetings of the District Road Committee were held in the Tipperah district, and the number of members who attended was, as is reported, good, being generally about half the total number.

9. With reference to paragraph 21 of my report, the Magistrate reports that the works performed in the district consisted of petty repairs, which were done, as has already been reported, under the immediate supervision of the Executive Engineer. On the Laksham road the work consisted of the repairs of sundry masonry bridges and the filling up of places where the road had been worn away during the previous rains. The repairs done to the other two roads, viz., Compaungunge and Brahmunberiah roads, are also stated to have been of a similar nature. The Magistrate reports, after personal inspection, that the repairs to the above mentioned roads have been properly executed.

10. The only original work undertaken during the year in the Tipperah district was the erection of the Road Cess Committee Bungalow, which, it is reported by the Magistrate, has also been completed in a satisfactory manner.

11. *Noakhally*.—During the cess year 1873-74 only two meetings of the District Road Committee were held in the Noakhally district, and the number of members who attended, it is reported, was hardly sufficient to form a quorum. As the members took little or no

interest in matters of local improvement, the Chairman states that he intends to effect a thorough reformation in the constitution of the committee.

12. The Chairman was unable to state in detail how each item of work was carried out in the district. He states, however, that he has inspected most of the roads upon which repairs have been carried out, that they have been properly done, that the expenditure appears to have been worked up to, and that the same remarks apply to the original works completed.

13. *Hill Tracts*.—The Deputy Commissioner of the Hill Tracts reports that the works entered in the original estimate could not be carried out to the full extent, owing to the advances having been made from the Road Fund under special circumstances to the following distressed hill people:—

1st.—Van Whooya, Sylloo chief.

2nd.—Myoni Tipras.

3rd.—Chuckmas and other hill men.

The Deputy Commissioner further explains that the works mentioned in paragraphs 31 and 32 of my previous report could not be executed to the full extent of the original estimate for the following reasons. Van Whooya, the Sylloo chief, was allowed time to repay the loan under the orders of Government; the Myoni Tipras could not work off their advances, owing to an outbreak of cholera; and the Chuckmas and others received their advances so late as June and July last.

14. The following statement, submitted by the Deputy Commissioner, shows the amount actually recovered in cash and the estimated amount worked off by labour from 1st October 1874 to 31st January 1875.—

Number	Particulars	Amount		Total
		Rs.	A. P.	
1.	From Van Whooya—By cash from sale of rubber	370	0 0	
2.	From Myoni Tipras—Cash	1,334	2 8	
3.	From Chuckmas and others—Cash	2,971	0 0	1,665 2 8
4.	From Myoni Tipras—Estimated recovery in labour	4,300	0 0	
5.	From Chuckmas and others	1,500	0 0	
				4,800 0 0
Total				9,465 2 8

15. I have lately visited the Hill Tracts. As far as I have seen, it appears to me that the roads of this district have not been well or advisedly laid out, and I have requested the Deputy Commissioner not to undertake the construction of any new roads, or to commence any extension or costly repairs to any of the existing roads, until the line of the proposed or existing road has been properly surveyed and reported on by a scientific officer.

Annual Report of District Works in the Chittagong District for the last road cess year ending 30th September 1874

1. *Arracca Road*.—This road has been widened to 15 feet on the top from the south bank of Hungur Nullah, i.e., 30th mile to Sirdar's Diggy, and from the Nullah Goleeah Khal to the east of the Bousha Nullah, and turfed from 30th to 33rd mile.

The masonry work of bridge No. 41, one hundred feet span on the 30th mile, has been completed, and wood-works are being conveyed to site of work. It is expected the bridge will be completed in a month or two. It is proposed that the road will be widened in 1874-75 from the 33rd to 40th mile, and two bridges will be constructed with masonry abutments and wood-work, and two culverts on the 30th and 31st miles, respectively. It has also received surface repairs from mile-post No. 1 to mile-post No. 27, and is now in good order; seven wooden bridges have been repaired. The construction and repairs of 223 bamboo bridges in the Arracca, Gurjoneah Hill Tract, Juldee, Bakhkhalee, and Parkoe roads, have been completed. Surface repair to the road from 1st to 33rd mile will be made, and old wooden bridges will be repaired and coal-tarred during the current cess year.

2. *Rongpur Road*.—The widening and straightening of this road have been carried out from 10½ to 12 miles, being in length a mile and half, having a width of 16 feet at top; and turfing has been done to the same. Two new wooden bridges, with masonry abutments and wing walls, have been completed on the 10th mile. Surface repairs have been done to the road between 3½ to 26th mile, being 22½ miles; and 14 wooden bridges have been repaired. It is proposed to widen and straighten the road from 12th to 15th mile during the current year. Necessary repairs to the road and bridges will also be made from 1st to 26th mile.

3. *Hill Tract Road*.—This road has received surface repair from the junction of the Hungur road to Futtieks, being 3½ miles. The road will be extended in this year from Futtieks to Goherra, a distance of one mile.

The wooden bridges will be coal-tarred, and the old road will be repaired in the current year.

4. *Mouskhallee Strand Road*.—The road has been constructed from the junction of the Modarbarer road to Gohaldanga being 2 mile in length, and 10 feet at the top, and two wooden bridges, with masonry abutments and wing walls, have been built to the same: the road and bridges are now in good condition. The road will be extended during this year up to Abdool Maloom's road at Haldieshabur being 1 mile. It is proposed to put stones on the side of the old road near Gohaldanga, in order to prevent the road being washed away by the river Kurnasfooler where it is too close to the river.

Surface repairs of the following minor roads have been completed, and two bamboo bridges have been put in on the Malgum's haat road:—

5. *Bakderat, Khilgaon, Naserabad, Halveshabur, Mouskhallee towing path, Tipperah Pass, Ratanagar, Mahanagar, Sakarapah, Bhulghai, Khursona, Chandpore, Poroykerah, and Tongerah roads.*

6. *Boukhallee Sluice gate*.—Angle irons have lately been received from Calcutta for strengthening the gate, which will be fixed after the rains, when the flooring also shall have to be raised a little.

7. *Boukhallee Canal*.—This canal will be cleared out about a mile and half in next January.

8. *Boukhallee Canal*.—This canal has been deepened, and silt excavated for about two miles, a portion in the middle, about 100 running feet, which could not be completed in consequence of rains setting in last year, will be deepened during the next working season.

The minor roads and the bridges thereon, will receive necessary repairs in this year, and two wooden bridges on the towing path on the bank of the Boukhallee Nulla repaired.

(Sd) DEMONATH SEN,

Offg. Executive Engineer, Chittagong District.

HIGH COURT NOTICES.

Circular Order and Memo by the High Court of Judicature at Fort William in Bengal

Circular Order No. 3.

Dated Calcutta, the 8th May 1875.

MORE than a year having now elapsed since the promulgation of the rules made under the Court Fees' Act, and the Court being desirous of judging how the rules have worked, and in what respects they need improvement or extension, all District Judges and Judicial Commissioners under the Court's authority are requested to submit,

HIGH COURT
SOLICITOR GENERAL
Clerk

within the first week in July next, a careful report on the subject.

3. The Court desire to be informed as to the operation of the rules—

1st.—With reference to the interests of suitors.

2nd.—As to official convenience.

3rd.—From the financial point of view.

3. Under the first of these heads, it should be shown whether any injurious effect has been produced, or complaint occasioned, by alterations in the amount of fees as compared with the practice supervised by the rules; whether a resort to process of any particular kind has been promoted or discouraged by the fees imposed, with especial reference to the charges, some of them new, imposed on processes requisite in execution of decree.

4. Under the second head, it should be stated how far the rules have worked smoothly, regarded merely as a code of office regulations; whether they have presented any real difficulties to fairly intelligent officers; whether they have been found to admit of easy check and control by superior authorities, whether the fees are considered as bearing a due proportion to the importance or difficulty of the services to which they severally apply, and whether they have in any instance a tendency to throw excessive labour on officers who are not paid out of the fee fund, or with reference to it.

5. As bearing upon this inquiry, the Court refer to the very general complaint that improper advantage is taken of the uniform fee of Rs. 2 or Re. 1 on every summons, without reference to the number of persons named therein, and that witnesses in unreasonable numbers are cited either recklessly or with a view to some grievance being founded on the failure of such witnesses to appear at the trial.

6. Upon the third head of inquiry, the Court desire to be informed, as fully as possible, of the income derived from the fees and the expenditure to be met against them. While on the one hand the Court have not considered that these fees ought to be, in any important sense, a source of revenue, on the other, it is clear that the Government ought to be protected against loss, not only on the whole, but also in any given direction.

7. It is material to know whether the salaries and remunerations fixed for the persons and the superior officers employed in the service or execution of process, have been found adequate to both the higher and the lower grades for the purpose of attracting and retaining in the service men duly qualified for the duties which they are called on to perform, and whether the circumstances of particular districts demand an increase, or permit a reduction in the salaries appointed, which, as they stand, are applicable to all districts.

8. The Court desire particularly to be informed how far it has been practicable to appoint no process server who cannot read and write, how many old officers of this kind, i.e. unable to read and write, have been retained, and for what reason. And opinions are invited as to a suggestion which has been made that, on the establishment of every superior Court, there should be a limited number of men of a superior class, and bearing a different name for the performance of the more responsible duties devolving on these men, such as the attachment of property and arrest of judgment-debtors in large suits, and the like.

9. The Court expect that District Judges will treat the subject with the care which its importance demands, and will render valuable assistance in preparing revised rules for acceptance by the Government.

10. It will be convenient if, in making their reports, the District Judges follow strictly the order here indicated.

Circular Memo. No. 8.

Dated Calcutta, the 28th April 1875.

All District Judges and Judicial Commissioners are requested to report, for the information of the Court, how the rules laid down in Circular Order No. 21, dated 18th August 1873, have worked, both as regards the obtaining of better sales, and in the way of preventing abuses, in respect more particularly of the smaller

holdings sold in execution; and whether, in such cases, complaint has been made.

By order of the High Court.

W. M. SCOTTES, Registrar.

Sheriff's Office, the 12th May 1875.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1875, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the seventh day of June next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Session be then and there to prosecute.

EDUCATIONAL NOTICES.

1. The Calcutta Medical College Session of 1875-76 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 3 P.M. on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

■ The certificates of lectures and hospital attendance of the college are recognized by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

NOTIFICATION.

The 16th May 1875.—The Lieutenant-Governor is pleased, in supersession of the Notification published at page 1647 of the *Calcutta Gazette* of the 4th November 1874, to direct the substitution of the following for Rule 96 of the Rules regulating labour transport under Act VII (B.C.) of 1873, published in the *Calcutta Gazette* of 21st January 1874, and of the following Schedule showing the scale of clothing to be provided for emigrants, for Schedule A, Parts A and (a) appended to those rules:—

Rule 96.—The space measured off for emigrants shall be fitted, along the sides of the vessel, with (a) a boarding three feet high, rising from the planksheer of the vessel, and (b) thick and sound canvas curtains, hanging from roof to deck, with ventilating space under the eaves, and fastening closely to the deck below. But from the month of October to March, both inclusive, the three-foot boarding shall completely enclose the emigrants' deck space, and, besides the side curtains, there shall be similar curtains hung, one at each end of the deck, so as to convert the entire space allotted to emigrants into a thoroughly sheltered compartment, with ventilating spaces near the roof for the exit of heated and unwholesome air. This large compartment shall, moreover, be sub-divided into three smaller compartments by a couple of intermediate curtains, stretched right across the deck space from one side of the vessel to the other; but, instead of extending almost up to the roof, as the curtains at the sides and ends must do, raised to a height of six feet only, measuring from the deck upwards, the space above being left clear and open for the purposes of free ventilation.

NOTIFICATION

The 1st May 1875.—Under the provisions of Section 2 of Act V (B C) of 1873, the following plan for extending gas-lighting to certain portions of the town of Howrah is published for general information:—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the grand trunk road which lies between Ramkrishnapore Ghant Road and Bishop's College Road, Seebpore Ghant Road and Ghosseroy Road. The total length of these roads is 2½ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,61,363, and a rate of 3 per cent. would yield an income of Rs. 4,840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept the sum in payment for supplying gas.

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from their general fund during the current official year.
